100% PURE WHEY PROTEIN

HIGHEST QUALITY FOR MUSCLE BUILDING

Protein powders are specially developed to support muscle building in different training phases. Due to the high protein and low milk sugar and fat content, the shakes are ideal for your training.

PRODUCT FEATURES

- 100% Pure Whey Protein supplies the body with 80% pure whey protein from three sources - isolate, concentrate and hydrolysate.
- With whey protein isolate as main ingredient, each serving contains 24 g of high-quality protein (incl. 5.7 g BCAAs) with only 1.4 g carbohydrates.
- It delivers the best taste and excellent solubility in water with high functionality at the same time.
- 100% Whey Protein contains high-quality ingredients for muscle building and accelerated regeneration after training.
